If you're interested in a meeting to discuss a likely collaboration with Univ of Nebraska- Lincoln at the AltEn site, please complete the doodle poll below. If you don't have further interest, just let me know! Since non-EPA folks will also be attending, this seemed the easiest way to get everyone's availability. If you know of others who might be interested, please forward this message (and copy me). Please complete by 10/22 so I can get the meeting on our calendars before they fill up!

Subject: Potential project with Univ NE-Lincoln; seeking review and coordination

Annette,

I was recently contacted by Dan Snow, a colleague from the University of Nebraska- Lincoln (UNL), about a new project

Ex. 5 Deliberative Process (DP)

The basic issue is coming from a corn processing/ethanol plant and the associated pesticides and fungicides being released into the environment. Dan sent these links from several news articles:
